

# BULLYING AND HARRASSMENT

In an effort to provide students with a safe and orderly learning environment, we at Pine Grove Middle School take any concerns of potential bullying seriously. The PGMS administration has found that intervening early is a big help. Students are encouraged to report any potential bullying to any adult in the building. They will help to intervene, provided support and address the issue.

The Maryland State Bully Form (these completed forms should be handed in to an administrator) can be found on the [Maryland Department of Education web page for Bullying Prevention](#).
